

New trends in javascript development (2018)

By Peter Cosemans

The Top JavaScript Trends

- React vs Vue.js
- Angular (don't forget me)
- WebPack 4 & Parcel
- Babel 7 & TypeScript 3.x
- GraphQL (Apollo Client)
- SSR with Next.js & Nuxt
- Gatsby: Static Site Generation

Thank You 🙌

<https://gql-all-things.now.sh/>

```
class MyClass {  
  constructor(props) {  
    super(props)  
  }  
}
```

- Two
 - aaaaaa
 - aaaaaa
- Two
- Three

enter

aaaaaa

- Item one
- Item two
- Item three

aaaa

- Item one
- Item two
- Item three

```
<html>
  <div attr="0000">
    <div attr="0000">
      <div attr="0000">
        </div>
      </div>
    </div>
```

Table

One	Two
Cell	Cell
Cell	Cell
